

NC State Grange
Local Grange Grant for Building Renovations

At the State Grange Convention, the delegates approved a new program to assist Granges with needed renovations including both building and grounds improvements. This form may be used when applying for assistance. Only those Granges that are 100% owners of the building may apply. If the Grange has a previous zero percent loan outstanding, these funds may not be used to repay the loan. Approval of these grants will be contingent upon funds availability. Submit applications to Jimmy Gentry at the state office by email, postal service, or hand delivery. Use additional pages as needed. A committee will review each application.

1. Describe needed renovations.
2. Attach estimates from no less than 3 contractors.
3. If the work is being done by volunteers, attach a list of materials needed and costs.
4. Statement of how the renovations will help to grow membership.
5. Plans for Publicity
6. Report to the State Grange upon completion of the project.
